## leadcare ll

# Blood lead testing in Indiana

### THE FACTS\*

290,000 Homes with lead

service lines

358,160

Children living in these homes

### REIMBURSEMENT

LeadCare®II is reimbursable with CPT code 83655.

## **BEST PRACTICES**

Test all children at ages 1 and again at age 2; or up to age 6, if they have not previously been tested.

Test pregnant and lactating women when a single risk factor is present.

#### High-risk population required to test:

- All Medicaid children at age 1 and age 2; or up to age 6, if they have not previously been tested.
- All children prior to Head Start enrollment.

#### Who is NOT getting tested?

(Based on Medicaid requirements & EPSDT reports)

#### Is LeadCare<sup>®</sup> II right for your practice?

- Do you find patients don't comply with scripts for their lab lead tests?
- Does your staff waste time following up on tests, or get frustrated with slow turn around time?
- Do you already perform, or are you considering, fingerstick hemoglobin testing?
- Would an immediate result be helpful to your staff or appreciated by your patients?

If you answered 'YES' to just one of these questions, then LeadCare II could be a valuable tool for your practice.
