Blood lead testing in Oklahoma

This information is subject to change

Who needs to be tested?

Universal

- Federal rules require blood lead testing of all Medicaid children at ages 1 and 2 years old and 3 to 6 year olds if they have not been previously tested.
- Oklahoma Childhood Lead Poisoning Prevention Program requires that ALL children be tested at 1 and 2 years of age, regardless of Medicaid status.
- Lead test required for all Head Start children prior to enrollment.
- Discuss lead exposure with all women who are lactating, pregnant, or planning a pregnancy. CDC & ACOG recommend testing when only one risk factor is present.
 - For more information: [CDC's Guidelines for the Identification and Management of Lead Exposure in Pregnant And Lactating Women](#)

Targeted

- The Oklahoma Childhood Lead Poisoning Prevention Program (OCLPPP) is focused on communities and populations where there is significant evidence of high numbers of children 6-72 months of age who are at high risk for lead poisoning.
For more detailed information, including a high risk map, please visit:
<https://www.ok.gov/health2/documents/LEAD%20Map%20of%20High-Risk%20Target%20Areas.pdf>
- All other children not tested at ages 1 and 2 years should be screened with the Lead Risk Assessment Questionnaire.
