Blood lead testing in South Carolina

THE FACTS*

LL,000 Homes with lead

service lines

88

183,636

Children living in these homes

REIMBURSEMENT

LeadCare®II is reimbursable with CPT code 83655.

BEST PRACTICES

Test all children at ages 1 and again at age 2; or up to age 6, if they have not previously been tested.

Test pregnant and lactating women when one risk factor is present.

High-risk populations required to test:

- All Medicaid children at age 1 and age 2; or up to age 6, if they have not previously been tested.
- All children prior to Head Start enrollment.

Who is NOT getting tested?

(Based on Medicaid requirements & EPSDT reports)

Is LeadCare[®] II right for your practice?

- Do you find patients don't comply with scripts for their lab lead tests?
- Does your staff waste time following up on tests, or get frustrated with slow turn around time?
- Do you already perform, or are you considering, fingerstick hemoglobin testing?
- Would an immediate result be helpful to your staff or appreciated by your patients?

If you answered 'YES' to just one of these questions, then LeadCare II could be a valuable tool for your practice.
